

Kiwaniis Tampa Club Weekly Alert

Monday, March 5, 2018

Hello Aaron,

This Week's Program...

Mark Ward with TECO's Solar Energy Program

Mark has almost 25 years professional experience, primarily in the power sector. His experience is diverse having managed utility planning, business development, project management and asset management.

He began his career in power during the 90's with Tampa Electric. His team provided the early planning and development for the Rayside Power Station that converted an older 1200 megawatt coal plant to more than 1800 megawatts of natural gas.

Mark left Tampa Electric in 2001 to pursue opportunities with utilities and independent power producers in deregulated power markets.

In 2007, Mark met T. Bruce Pickens and formed Mesa Power Group that primarily developed wind generation as part of Mr. Pickens Independent Energy plan. He managed Mesa Power for 7 years before forming an energy consulting practice.

In 2008 Mr. Ward rejoined the Tampa Electric Team to oversee the development and execution of the Company's solar strategy.

Today, Tampa Electric is developing and constructing 600 MW of solar power for its customers. The first solar projects are on schedule to begin service this fall. Mark is excited to be back in the Tampa Bay Area and part of Tampa Electric as it executes its strategy for providing clean, cost-effective and reliable solar energy.

This week's starting kitty is \$638.00

NEXT WEEK'S PROGRAM

The Tampa Kiwanis Club
Requests The Favor

Of Your Presence For The

*Legion of
Honor Celebration*

Please [RSVP here](#) by
March 8!
